The current draft states that we will buy the offset group if it falls below $36 mmbtu and then sell the offset group if it comes back up or if it goes to $36+. I need to change this to a spot sale (50 mmbtu) to make it more realistic since this product will only sell 50 mmbtu per day. I know a spot sale cannot be made as a back to back transaction but can it be a forward transaction? If so, is there any way to get it done? Also, we will be doing this for Calpine for the Canadian Pool and the North-Texas Pool. This is per our conversation last week. Please advise. Thanks for your assistance in this
