I have read and understand GitHub's Guide to Filing Issues./she cannot see again! We cannot imagine going back to a time when children could be whisked away to live out of reach from their parents for many years. We also cannot even begin to understand the stifling effect of religion on those who are not part of the religion or who do not feel that they can adopt a religion. No wonder that many people are so interested in the history of the Jews in Egypt. The Bible tells us that there was a period of 463 years after the Exodus during which the Hebrews stayed in the desert. No doubt, this period was a difficult time. However, there was one great advantage for the people, the people began to gain strength and their numbers increased. Eventually, they became a major power and King David, their leader, defeated the Egyptians. This, we are told, was a major turning point in the history of the Jews. The writer of the book of Proverbs cautions us to "Take hold of instruction; let her guide you; be not a novice in understanding, but an expert [with the rules of her message]." After a long period of study, we must have experience in the subject we want to learn. At that time, we need to practice what we have learned. We must not ever be satisfied with an "imperfect understanding." We must continue to grow in our understanding. A wise person would know that a growing understanding will always provide us with a more complete understanding. We learn our trade by doing a little bit every day. We do not become accomplished or experienced overnight. So too, do we learn to understand the Bible. We must learn to understand the Bible by praying, reading, listening to others discuss, and spending time in the Word of God. We are not supposed to become bored with the Word of God, but are to experience it as a way of life and as something that enriches our lives. Our hope is that we will go to a local Christian bookstore and buy a Bible and see if we can learn to read it and understand its message, by asking questions and listening to answers. It may seem like a cumbersome undertaking at first. However, when we begin we will discover that this is a part of the process of growing in understanding the Bible. Various methods have been used to administer medical treatments to patients. For example, a doctor may inject medicine into a patient's blood stream
